## Ambrosia, Ciszak Dalmas

The starting point for the Ambrosia was to bring back the traditional Linestra lamp to update it and show that a technical, resolute design can also be poetic.

The Linestra was initially a line of light, which transitioned into a modular system that can be extended to adapt to any space.

Babila, Marco Zanuso Jr.

Babila demonstrates that, when it comes to a design, the material can be as important as the shape. This outdoor wall sconce is of polished stainless steel, a circular object that produces a panoramic effect, reflecting its surroundings. It is not

designed to be an architectural element, but rather a simple and beautiful design that draws attention, whether on or off, as it allows us to catch a glimpse of the daily life occurring around it.

The Bicoca is born with the optimism of brightening life and accompanying the good times, wherever you go. This colorful, lightweight portable lamp projects an intimate light that adds warmth to all your personal spaces.

Made of polycarbonate, Bicoca begins with an overlay of basic geometric figures, with a tiltable shade to direct the light. Three separate accessories increase the applicability and versatility of the lamp.

At first glance, the Bohemia appears to be made of blown glass. In fact, however, the lamp's large size ruled out that material. Instead, the designer settled on polycarbonate to create an exciting, organic, translucent profile that integrates two

volumes into a single shape. The design allows for a large shade in different colors that does not interfere with the white interior.

## Bolita, kaschkasch

The Bolita lamp beckons you to touch it to adjust it. Its structure is as simple as it is magical: a rounded surface that houses an LED located on a central axis, and an overlapping glass sphere that when moved, creates an eclipse effect.

Moving the Bolita dims or boosts the light, an interplay that captivates with its beautiful visual effect.

The beauty exuded by the Cala stems from its simple, synthetic and essential form: a shade that embraces the light without containing it, letting it escape to yield very warm lighting.

Its structure has always been made of wood, it's also available in a black lacquered metal. An iconic Marset design defined by that most valuable pairing: form and function.

Its design evokes a garage lamp, but a high quality one, lighter and eminently useful, with three setting for illumination. It is sophisticated and conveys a warm light, decidedly designed to serve as an accompaniment. Its structure is protected by a

grate that revolves the light source, a touch rendering it truly original. It also comes with an accessory that allows one to hang it.

## Cluster, Accessory

Take into account the total power in watts, the power of the driver, and the wire entry points of the canopy. The total wattage of the selected lamps cannot exceed the max wattage of the canopy's driver.

Therefore, you must choose your canopy/driver by the power required. Finally, the number of lamps installed in a single canopy cannot exceed the number of wire entry points of that canopy.

Customize your space with our new Dipping Light cluster configurator at [configurator.marset.com/dipping-light](http://configurator.marset.com/dipping-light)

Concentric is a visually striking lamp whether it's on or off, though turned on in the dark is when it becomes the most impressive and dynamic. The effect it promotes is almost hypnotic, because of the way the light vibrates when we view it.

The Concentric collection is based on an artistic endeavour to highlight this interaction between light and the reflection of colour, as each white circular panel plays with a different colour on its back.

This collection consists of a table and floor lamp, as well as a separate torchier-style floor lamp, all of which use mixed materials of different densities, such as aluminum and steel, to create a unique counterweight system.

This structure affords great precision when moving the lamp, reaching different heights and distances to adjust the position and direction of the light beam.

 Switch location: Tilttable diffuser

## Copérnica P190

Code	Finish	Price
A686-013	 Satin Nickel-White	*1117 €
A686-014	 Graphite-Black	*1117 €

Materials  
 Structure: Steel  
 Base: Steel  
 Diffuser: Aluminium

Dimmable: Yes  
 Integrated dimmer: Yes  
 Dimming protocols: Progressive dimmer from 0 to 100

Product type: Floor  
 Light source: LED SMD 700mA 25,8W 2700K CRI90 3064lm  
 Luminaire: 220 - 240 VAC 28,9W 2302lm  
 Weight: Net 7,6 kg – Gross 13,4 kg  
 Package: 203 x 26 x 33 cm – 4,4 kg Vol – 0,174 m<sup>3</sup>  
 36 x 36 x 3 cm – 9 kg Vol – 0,004 m<sup>3</sup>  
 LED included

Cable length: 2 m  
 Wire installation: Plug-in  
 Color cord: Black  
 Switch location: In-line

## Dipping Light, Jordi Canudas

Beyond its function as a lamp, the Dipping Light seeks to excite. When it's turned on, its different shades of paint sift the light, creating a magical ambient effect. When it's off, its colored glass sphere is an object charged with beauty, and eye-

catching design piece for a shelf, bedside, or table. The various layers of paint draw concentric circles and capture the light, moderating its intensity. The paint becomes the shade, colouring and texturizing the light.

Weight: Net 1,2 kg – Gross 1,5 kg  
Package: 59 x 19 x 15 cm - 1,5 kg – VOL - 0,02 m<sup>3</sup>

Wire installation: Hardwired

## Djembé, Joan Gaspar

Using a rotomolding technique allowed the designer, Joan Gaspar, to design a fixture with vastly different interiors and exteriors: its outside recalls the texture of a stone, giving off a perception of great weight, emphasized by its volume. In the

spacious interior you'll find a smooth, white space perfect for the reflection of light. Djembé is a lamp designed for use in public spaces that seeks to bring beauty and an unbeatable quality of light.

## Accessory Djembé Sound

Code	Finish	Price
A681-553	White	424 €

### Materials

Structure: PET accessory for the sound damping of a space.

Product type: Accessory

Weight: Net 2,1 kg – Gross 2,5 kg

Package: 10 x 85 x 85 cm - 2,5 kg – VOL - 0,07 m<sup>3</sup>

Product notes: Only available for Djembé 100.38 and

Djembe C100.38.

### Accessory C2 Djembé 42

Code A681-017      Finish ● Black (RAL 9005)      Price 164 €

Materials  
Structure: Painted iron

Product type: Accessory  
Weight: Net 0,91 kg – Gross 1,35 kg  
Package: 62 x 20 x 9 cm - 1,35 kg – VOL - 0,01 m<sup>3</sup>  
Product notes: Accessory to combine 2 Djembé 42 models for a single junction box.

### Accessory C3 Djembé 42

Code A681-018      Finish ● Black (RAL 9005)      Price 236 €

Materials  
Structure: Painted iron

Product type: Accessory  
Weight: Net 1,6 kg – Gross 2 kg  
Package: 64 x 40 x 9 cm - 2 kg – VOL - 0,02 m<sup>3</sup>  
Product notes: Accessory to combine 3 Djembé 42 models for a single junction box.

### Accessory C2 Djembé 65

Code A681-019      Finish ● Black (RAL 9005)      Price 165 €

Materials  
Structure: Painted iron

Product type: Accessory  
Weight: Net 1,13 kg – Gross 1,55 kg  
Package: 85 x 20 x 9 cm - 1,55 kg – VOL - 0,015 m<sup>3</sup>  
Product notes: Accessory to combine 2 Djembé 65 models for a single junction box.

### Accessory C3 Djembé 65

Code A681-020      Finish ● Black (RAL 9005)      Price 237 €

Materials  
Structure: Painted iron

Product type: Accessory  
Weight: Net 1,8 kg – Gross 2,2 kg  
Package: 85 x 20 x 9 cm - 2,2 kg – VOL - 0,015 m<sup>3</sup>  
Product notes: Accessory to combine 3 Djembé 65 models for a single junction box.

Funiculí is a reedition of a lamp designed in 1979. Lluís Porqueras has always sought an absolute simplicity in his designs, doing away with everything superfluous to leave the essence of the useful, simple object.

Using the same double-clip mechanism of the original, this scaled-down model allows easy height adjustment and 360° shade rotation to fit the needs of any room or user.

The Ginger collection is notable for its great simplicity of form, its lightweight appearance and reflected direct light. A design for any type of project.

Available in two very different materials, wood or metal, it provides a warm glow with no glare, illuminating just the areas that need it.

The Ginger collection is moving outdoors, with wall sconces that can be installed individually or in a cluster, a new 15 cm sconce –perfect for passageways and small outdoor areas–, a lamppost, small floor lamps and a new wall version with an arm.

The Ginger outdoor also introduces a unique rust finish, with a deep, warm glow, alongside the standard black-white metal finish of the indoor version.

## High Line, Josep Lluís Xuclà

Visually, the High Line is a light sculpture, a svelte line that gives off light without revealing its source. This floor lamp by Josep Lluís Xuclà generates light indirectly by reflection, and uniquely, the light does not bounce off the ceiling, but off the wall.

Its designer is interested in having the wall return the emitted light. A wall is this lamp's greatest ally, and they want to remain close. Formally, it's a composition in volumes and colors.

Cable length: 2,2 m  
 Color cord: Black  
 Switch location: In-line

In search of the beauty of light, she created a sculptural lamp defined by its pure, almost graphic forms, and by the balance between rigidity and fragility.

In an effort to offer ambient light for any classic or contemporary interior design project, this collection can be used to create light compositions.

 Weight: Net 14,3 kg – Gross 17,2 kg  
 Package: 63 x 62 x 7 cm - 15 kg – VOL -0,027 m<sup>3</sup>  
 31 x 18 x 17 cm - 2,2 kg – VOL -0,009 m<sup>3</sup>  
 Product notes: Base only compatible with Jaima P207

## 70 base + stem

Code A683-044      Finish ● Concrete and black (RAL 9005)      Price 857 €

Materials  
Base: Concrete  
Stem: Stainless steel

Product type: Accessory  
Weight: Net 36,8 kg – Gross 51,7 kg  
Package: 75 x 75 x 19 cm - 49,5 kg – VOL -0,106 m<sup>3</sup>  
31 x 18 x 17 cm - 2,2 kg – VOL -0,009 m<sup>3</sup>  
Product notes: Base only compatible with Jaima P307

## Fix stem

Code A683-032      Finish ● Black (RAL 9005)      Price 275 €

Materials  
Stem: Stainless steel

Product type: Accessory  
Weight: Net 1,9 kg – Gross 2,3 kg  
Package: 31 x 18 x 17 cm - 2,3 kg – VOL -0,009 m<sup>3</sup>  
Product notes: Compatible with Jaima P207 and P307.

## Wall bracket

Code A683-045      Finish ● Black (RAL 9005)      Price \*214 €

Materials  
Stem: Stainless steel

Product type: Accessory  
Weight: Net 1,8 kg – Gross 2 kg  
Package: 31 x 18 x 17 cm - 2 kg – VOL -0,009 m<sup>3</sup>  
Product notes: Compatible with Jaima P207 and P307.

## Dimmer Casambi IP65

Code A712-001      Finish ● Black      Price 343 €

Materials  
Case: ABS  
Trim: Aluminium

Product type: Accessory  
85 - 240 VAC max. 50W  
Weight: Net 2 kg – Gross 3 kg  
Package: 20 x 12 x 8 cm - 3 kg – VOL - 0,002 m<sup>3</sup>  
Product notes: Bluetooth smart wireless trailing edge dimmer that adjusts light intensity or switches the lamp ON/OFF. Available in Android or iOS with the app Casambi.

Its ergonomic design beckons you to move it in any direction, up to 360°, and its use is very intuitive. When opened, it turns on automatically; when closed, it turns off and hides away in the wall, like camouflage. It's so versatile it can be installed

vertically or horizontally, adapting to the needs of your space. Also Ledtube features a honeycomb grill that traps peripheral light in all directions, avoiding glare.

## Manhattan, Joan Gaspar

Rational and minimalist, this wall lamp is the result of a technical, functional and ornament-free design. Inside, a polycarbonate film surrounds the light source to provide high-quality diffusion.

Designed to illuminate kitchens and bathrooms, it has an IP44 rating. Its shape allows it to be installed both vertically and horizontally.

## Manhattan LED 63.5

## Maranga, Christophe Mathieu

Maranga is the name of an imaginary fruit: exquisite, tempting, succulent. It reinterprets Scandinavian style in the essentiality of its shape and its rational use of lighting to generate a warm, comfortable atmosphere.

This interplay of light and dark generates an effect which is rich in shades of light and prevents glare, while an opening at the bottom fitted with a diffuser gives out direct light downwards.

## Maranga 50

An almost imperceptible lens covers the LED and distributes the light. If only the cylindrical lamp is used, the downward-directed light is impeccable, and when a

shade is added, the light escapes, illuminating the lamp itself. This new lighting system gives the user control of the light, offering a new conceptual proposal.

## MVV, Manuel Valls

The MVV story begins in the 1970s. This new suspension lamp is a first, and was designed by Manuel Valls Vergés, one of Spain's most notable architects at the time and partner of Jose Antonio Coderch for 15 years, alongside whom he undertook

such prominent projects as the Ugalde house, near Barcelona. The MVV name reflects Vergés' initials, as a way of displaying his authorship of this unique lamp.

N°8, Christophe Mathieu

The wooden sphere of the N° 8's lampshade is handcrafted to make each lamp unique. Its smooth texture has the quality and feel of a billiard ball, while its flexible arm, covered in braided fabric, is a mainstay that improves its look without sacrificing

its efficacy. The N°8 was designed to be placed at the head of a bed and add comfort to the bedroom, a place dedicated to restfulness, where a good book is always healthier than a sleeping pill.

## Plaff-on!, Joan Gaspar

A good design is one that lasts over time. This is the case with the Plaff-on!, a lamp that has been illuminating ceilings and walls for almost ten years. This very functional collection has been updated with versions in two sizes of 33 and 50 cm in diameter

including IP protection grade, a bollard model and an outdoor wall version with perpendicular orientation and a new finishing in rust brown.

The idea behind the Pleat Box is a sophisticated combination between a digitally designed crease in a piece of cloth and a silhouette that is applied to a ceramic base.

The Pleat Box collection is available with an integrated LED technology, which projects indirect light and prevents glare.

Compact indoor and outdoor wall lamp with a pressed glass diffuser. Its undulating shade covers the light, blurring it. It doesn't settle for just providing light, it also manages to create an ambiance.

Roc tempts the senses. It looks like a bright block of ice, and its irregular, almost organic texture beckons to be touched.

## Santorini, Sputnik Estudio

Santorini was created as an outdoor light, inspired by the lamps on fishing vessels. Following its good run, an indoor suspension version is now being released.

This collection remains rich in its nuances and shapes by allowing the user to position the shades, creating different lighting arrangements.

Scantling, Mathias Hahn

Wood and metal combine in a design that utilizes the beauty and simplicity of basic geometric shapes. The Scantling is based on a highly functional and flexible system, in which all the movements of the fully rotational shade use ball joints and arms to

create a versatile, easy-to-move light. In addition, its technical precision requires no exposed springs or counterweights to stay in the specified position.

The warmth of the fixture's ceramics contrasts with the faceted edges of the sphere, making it seem as if it is winking playfully. Made using a meticulous, traditional design

process, the lamps are fired four times – using glazes specifically developed for this collection – and incorporate warm, high-quality materials, such as gold.

## Soho, Joan Gaspar

The Soho makes a statement in recognition of those lamps that were traditionally used to light up markets, taverns and cafeterias.

It is made from rotation-molded polyethylene, a technique that allows us to offer it in different sizes.

## Sun, Yonoh

The concept of Sun is inspired by the early hours dawn, when the light of the sun plays along the horizon as it begins to appear. The Yonoh Studio played with superimposing materials to achieve this effect, creating a light with a luminous glow

that is capable of transporting us to that precise moment. The light that emanates from Sun creates a very special atmosphere, capturing our eyes and soothing our souls.

The Tam Tam is a festive and versatile collection that offers several options to add color and originality to all types of interior design projects. The idea is to be able to aim the light in any direction, making this fixture perfect for long or narrow spaces.

This year, the collection is updated with new colors and a semi-matt finish on all models.

## The W, PerezOchando

Unfold the light or fold it. The new design of Estudio Perez Ochando proposes a lamp of large format, flexible, thought to adapt to the different necessities of lighting big spaces.

A large black vertical structure is the main shaft from which a number of rods emerge; some can be moved upwards to expand the light and others downwards to focus it.

From light to shadow with a single gesture. Theia has two faces: to discover them, simply swivel the fixture around its central axis. It can be pointed towards you for use

as a reading lamp, or towards an object or a wall, creating a subtle, indirect light that immediately warms the atmosphere.

The TXL wants to fill space with a light of its own; stunning thanks to its size and its textile shade that filters the light and appears to vibrate. With a concrete base that

lends a distinct outline, it appears to be a one-piece construction. Solid and colossal, the TXL projects the warm light of an indoor space outside.

## Symbols & Certificates

---

### IP65

Electric fittings are preset in order to prevent the intrusion and contact with solids and liquids with live parts. Resistance against the penetration of solids and liquids is expressed by the initials IP, followed by two digits that stand for the degree of protection: the first referring to solids, the second to liquids.

Very low safety supply voltage; not to be used at over 12V (at 50Hz). Earthing: excluded.

All products are manufactured according to the set safety and electromagnetism standards of Europe: EN 60598-1, EN 60598-2-1 and marked CE.

Product complying with TR TC 004/2011 and TP TC 020/2011. Custom Union Regulation.

Product complying with UK Conformity Assessment.

Dimmer

Dimmer on the unit.

Dimmable

Product which can be dimmed.

Product with an additional protection cable (grounds).

Basic insulation plus second insulation or both replaced by reinforced insulation. Earthing: excluded.

\*

Available until depletion of stocks.  
Check with us before placing an order.

---

## Sales Terms

---

### Prices

This price list shows Recommended Retail Price, without VAT, and replaces any previous price list.

The invoice maturity date cannot be altered and any delays will be subject to the relevant administrative and financing expenses. The due date of an invoice can not be changed by the client in case of a commercial claim, except with a written authorization of Marset.

Sold products will be owned by Marset Iluminación S.A. (Marset) until full payment of invoice. This is also applicable to customers whose business closes down.

### Orders

Minimum Order: 120€ without VAT.

If a client requires an order of lesser amount, Marset will charge an extra 15€ for administration costs.

Orders will only be accepted if sent by fax or email.

The order will be considered definitive if the client does not make any amendments 24 hours after receipt of the Confirmation Order Sheet sent by Marset, including information on product, availability, quantities, price, payment and transport conditions.

International wire transfers should be made in OUR terms (Remitter pays all fees) so the total amount is received by Marset. If the transfer is received in any other conditions, we will charge you the corresponding fees in your next order.

### Transport

In general terms, orders will be delivered ExWorks. For certain markets there are specific transport conditions (check with Marset).

Marset's priority is to deliver orders as per agreed delivery dates but delivery dates communicated by Marset are approximate only, and Marset will not be liable for, nor will be in breach of its obligations to Customer, for any delay in delivery, provided that Marset shall use commercially reasonable efforts to meet such dates.

### Transport Claims

In case of any transport claim, Marset has an insurance that covers damages for CIP deliveries.

The client must inform via fax both the transport agency and Marset 24hrs since reception of goods. Please write the claim on the delivery note if the damage can be easily seen.

It is advised to put a stamp on the delivery note that states that the order has arrived and that the goods are subject to examination of the contents.

In case of damage or breakage, please ask our team whether it is best to fix the light with a spare part or to return the product.

### Repairs

All repairs are subject to a fee established once the fixture reaches Marset's factory. The transport fee will be charged to the customer.

### Goods return

Goods can only be returned subject to an official authorisation and approval by Marset.

If Marset accepts a return, the company will issue a credit note covering 80% of the amount invoiced.

Returned goods have to be sent with the original packaging, in perfect state and with the reference of the printed authorisation. Otherwise, our warehouse will not accept the goods.

### Guarantee

Our fixtures have a 3-year guarantee valid from the date of purchase. All our fixtures display a code with the manufacturing date. If the code is removed, the guarantee will not cover the product.

Our guarantee liability includes the repair or replacement of the goods, excluding shades, Light sources, charging cables and batteries.

The cost of installation and/or uninstalling the product and the transport fees are not included in the guarantee.

### Other

Marset Iluminación, s.a. reserves the right to modify any product in order to improve its characteristics, without prior notice.

Placement of an order implies acceptance of our sale terms.

All disputes will be subject to arbitration in Barcelona according to Spanish law.
